CONTENTS

FARMERS' BULLETIN No. 1351.—CABBAGE DISEASES:	Page
Cabbage and other crucifers	1
How the various diseases are disseminated	1
Farm practice and its relation to the control of diseases	4
Important diseases of cabbage and other cruciferous plants	7
Clubroot (clubfoot, finger-and-toe)	7
Root knot (caused by nematodes)	9
Black rot (brown rot, stem rot, dry-rot)	11
Yellows (yellow sides, wilt, dry-rot)	13
Blackleg (foot rot, wilt)	17
Soft rot	20
Root rot (wilt)	21
Malnutrition, a nonparasitic disease	22
Downy mildew	23
White rust	24
Drop (watery soft rot)	24
Spot disease of cauliflower	25
Black leaf spot (black mold)	25
Ring spot	26
Powdery mildew	27
Damping-off	28
ERS' BULLETIN No. 1352.—THE TOBACCO FLEA BEETLE IN THE UTHERN CIGAR-WRAPPER DISTRICT:	
Character of injury and extent of losses due to the tobacco flea beetle	1
Distribution	2
Life history and description of stages	2
Seasonal history and habits	4
Food plants	5
Natural enemies	5
Control measures	6
Summary of control measures	9
RS' BULETIN No. 1353.—CLOTHES MOTHS AND THEIR CONTROL:	
Clothes moths the chief pests of fabrics	1
Harmless moth miller parent of destructive worm	1
Common species of clothes moths	2
Food of clothes moths	7
Biology of clothes moths	8
Remedies recommended	12
Brushing, beating, and sunning	14
Careful wrapping in unbroken paper	15
Naphthalene	16
Paradichlorobenzene	16
Camphor	16
Pyrethrum powder	17
Cold storage	17
Fumigation of entire establishment with hydrocyanic-acid gas or sulphur fumes	19
Hydrocyanic-acid gas	20
Sulphur fumes	20
Carbon disulphid fumigation	21
Carbon tetrachorid fumigation	23
Cedar chests	23
Dry heat	26
Hot water	26
Laundry soap	27

FARMERS' BULLETIN NO. 1353.—CLOTHES MOTHS AND THEIR CONTROL—Continued.
Treatment of cracks and hiding places with gasoline, benzine, or kerosene — Page 27
Impractical or worthless remedies — 27
FARMERS' BULLETIN NO. 1454.—THE YELLOW-FEVER MOSQUITO:
How to recognize the yellow-fever mosquito — 1
Popular names by which it has been called — 1
Domesticity of the species — 1
Habits of the adult — 2
Breeding habits — 5
Geographic distribution — 8
Original home — 9
Relation to yellow fever — 10
Relation to dengue or so-called breakbone fever — 12
Remedies for mosquitoes — 13
FARMERS' BULLETIN NO. 1355.—BLACKLEG: ITS NATURE, CAUSE, AND PREVENTION:
Nature and history of the disease — 1
Geographical distribution — 2
Cause and mode of infection — 2
Susceptibility of animals — 3
Seasonal occurrence, weather conditions, etc. — 4
Symptoms — 5
Appearance after death — 6
Distinguishing blackleg from other diseases — 7
Treatment — 8
Vaccination — 8
Distribution of Government vaccine discontinued — 10
Preventing and destroying infection — 10
FARMERS' BULLETIN NO. 1356.—TOBACCO HORNWORM INSECTICIDE: RECOMMENDATIONS FOR USE OF POWDERED ARSENATE OF LEAD IN DARK-TOBACCO DISTRICT:
Advantages in the use of arsenate of lead — 2
Some early tests of arsenate of lead in comparison with Paris green — 2
Comparison of results obtained by use of Paris green and arsenate of lead in 1916 in Kentucky and Tennessee — 3
Dosage of arsenate of lead required — 5
How to apply arsenate of lead to tobacco — 6
When to apply arsenate of lead — 6
Grade of arsenate of lead that should be used — 6
Cost of arsenate of lead — 7
Calcium arsenate — 7
Summary — 7
FARMERS' BULLETIN NO. 1357.—CASTRATION OF HOGS:
Objects of castration — 1
Age at which to castrate — 2
Time for operating — 2
Preparation of pigs for the operation — 2
Operative procedure — 3
Operating on ruptured pigs — 5
The operation for ridgelings — 6
Spraying operation — 8
Publications relating to hogs — 8
FARMERS' BULLETIN NO. 1358.—GROWING RYE IN THE WESTERN HALF OF THE UNITED STATES:
Introduction — 3
Place of rye in the farming system — 3
Where rye is adapted — 5
Varieties — 7
Preparation of the soil — 13
Time of seeding — 14
Method of seeding — 15
Rate of seeding — 15
Harvesting and threshing — 15
Uses of rye — 16
Pests and diseases — 17
Returns — 18

FARMERS' BULLETIN NO. 1359.—MILK AND ITS USES IN THE HOME: Page
Composition and food value of milk 1
Digestion of milk 4
Milk for infants 5
Bacteria in milk 6
Pasteurization of milk 7
Care of milk in the home 9
Milk products 11
Use of milk in cooking 15
Summary 18
FARMERS' BULLETIN NO. 1360.—APPLE GROWING EAST OF THE MISSISSIPPI RIVER:
The point of view 1
Relative importance and distribution of the apple industry 1
Factors to be considered in selecting an orchard location 4
Factors to be considered in selecting an orchard site 5
Propagation of apple trees 8
Selecting apple trees for planting 9
Handling the trees when received from the nursery 13
Details of planting apple trees 14
Different systems of orchard culture 29
The place of cultural systems in orchard management 29
Tillage implements 33
Use of fertilizers 33
Pruning 37
Spraying 47
Protecting the trees against rabbits and mice 47
Thinning the fruit 48
A final word 49
FARMERS' BULLETIN NO. 1361.—BRAHMAN (ZEBU) CATTLE:
Cattle production in India 1
Description of Brahman cattle 2
Preferred types in India 4
Brahman breeds prominent in Texas 4
The Nellore breed 5
The Gir breed 6
The Guzerat breed 8
The Krishna Valley breed 9
Importations and distribution 11
The Borden importation 13
Types of range in Texas on which Brahman cattle are produced 14
Established herds and management 15
Observations of Brahman crosses 16
Breeders' organization desirable 20
FARMERS' BULLETIN NO. 1362.—INSECTS INJURIOUS TO ORNAMENTAL GREENHOUSE PLANTS:
Need of understanding insect pests 1
How insects are spread 2
How insects feed 3
Preparation of insecticides 4
Stomach poisons 4
Contact insecticides 6
Spraying and dusting 10
Fumigation 12
Tobacco 12
Hydrocyanic-acid gas 12
Greenhouse fumigation 15
Box fumigation 18
Carbon disulphid 20
Some injurious insects and their control (arranged according to plants attacked) 20
FARMERS' BULLETIN NO. 1363.—NATURAL AND ARTIFICIAL INCUBATION OF HENS' EGGS:
Study of an egg 1
Selection and care of eggs for hatching 1
Period of incubation 3
Time of the year to hatch chickens 4

FARMERS' BULLETIN No. 1363.—NATURAL AND ARTIFICIAL INCUBATION OF HEN'S EGGS—Continued. Page

Natural incubation 4
Artificial incubation 7
Selecting an incubator 9
Incubator cellar or house 9
Setting up and operating the incubator 11
Moisture and ventilation 14
Testing eggs 15
Cause of poor hatches 16
Disinfecting incubators 17
Summary 17
Publications relating to poultry 18

FARMERS' BULLETIN No. 1364.—IMPORTANT PECAN INSECTS AND THEIR CONTROL:

Insects injuring the nuts 1
The pecan nut case-bearer 1
The pecan shuckworm 7
The pecan weevil 11
The Southern green stinkbug and kernel spot 14
Insects injuring foliage and shoots 19
The pecan leaf case-bearer 19
The pecan cigar case-bearer 23
The pecan bud moth 25
The fall web worm 28
The walnut caterpillar 31
The hickory phylloxera 32
The little hickory aphid 33
Insects injuring the trunk and branches 34
"White ants," or termites 34
The oak or hickory cossid 36
The flat-headed apple-tree borer 38
The red-shouldered shot-hole borer 41
The belted chion 42
The hickory twig girdler 43
The oak pruner 47
Scale insects 48

FARMERS' BULLETIN No. 1365.—CLOVER FAILURE:

Introduction 1
Red clover compared with an annual legume 2
Decline of clover culture 2
How much of the cropped land should be in clover? 4
Clover failure defined 5
Causes of clover failure 5
Experiment-station results 8
Demonstrations by county agricultural agents 10
Liming 13
Summary of soil conditions 15
Seed, seed bed, and nurse crop 16
Insects and diseases 20
Wrong treatment in the autumn of the first season 21
Nitrogen-gathering bacteria 22
Substitution of another crop 22
Temporary expedients 23
Summary and suggestions 23

FARMERS' BULLETIN No. 1366.—PRODUCTION OF MAPLE SIRUP AND SUGAR:

Sugar maples 3
Sugar groves 4
Tapping the trees 11
Apparatus 13
Maple sap 24
Maple sirup 25
Maple sugar 30

FARMERS' BULLETIN No. 1366.—PRODUCTION OF MAPLE SIRUP AND SUGAR—Continued. Page
Care of apparatus 32
Yields 33
Marketing 33
Maple sugar and sirup production of the United States 34
FARMERS' BULLETIN No. 1367.—CONTROL OF POTATO-TUBER DISEASES:
Potato-tuber diseases in their relation to production and marketing 1
General types of diseases 2
Principal measures of control 3
Good storage and transit conditions 3
Use of selected seed 4
Careful handling 4
Seed treatments 5
Soil treatments 8
Detailed characters of potato-tuber diseases 8
Decays 9
Vascular diseases 17
Skin diseases and malformations 21
Obscure and nonparasitic troubles 29
FARMERS' BULLETIN No. 1368.—BREAKING AND TRAINING COLTS:
Fundamental principles 1
Suggestions 2
Man is master 2
Age to break 2
Gentling the colt 3
Breaking to lead 4
Handling the colt's feet 6
Breaking to drive 7
To stop a horse—"Whoa" 8
To back a horse—"Back" 10
Driving double 11
Driving single 12
Sights and sounds 14
Breaking to ride 14
Correcting bad habits 15
To throw a horse 16
Harness 17
Importance of a good mouth 18
Training and development go together 19
Publications relating to horses 20
FARMERS' BULLETIN No. 1369.—BRIDGE GRAFTING:
Introduction 1
Range of usefulness of bridge grafting 1
Mechanical injuries 2
Pathological injuries 3
Detailed instructions for bridge grafting 4
Preparation of girdled trees for bridging 6
Making the unions 6
Application of bridge-grafting methods in actual practice 7
Spacing the scions 13
Applying grafting wax 14
Making grafting wax 15
Safeguards 18
FARMERS' BULLETIN No. 1370.—DAHLIAS FOR THE HOME:
The appeal of the dahlia 1
Introduction to cultivation 2
Types 3
Propagation 6
Seeds 6
Cuttings 7
Division of roots 10
Cultivation 11
Planting 13
Storing 15

FARMERS' BULLETIN NO. 1371.—DISEASES AND INSECTS OF GARDEN VEGETABLES: Page

Plant diseases and insects 1
General crop pests 2
Cutworms 2
Aphids, or plant lice 3
Leafhoppers 4
Blister beetles 4
Flea beetles 5
Grasshoppers 5
Wireworms 5
Red spiders 5
Slugs and snails 6
Damping off 6
Root knot 7
Principal insects and diseases that attack garden crops 8
Asparagus 8
Beans 9
Beets and chard 12
Cabbage 13
Celery 20
Cucumbers, muskmelons, and squashes 21
Onions 28
Peas 30
Potato 31
Sweet potatoes 35
Tomato 36
How to make fungicides and insecticides 39
Fungicides 39
Insecticides 41
How to spray 43
Spraying and dusting tools 43
Miscellaneous control methods 44
Beneficial insects 45

FARMERS' BULLETIN NO. 1372.—PLUM AND PRUNE GROWING IN THE PACIFIC STATES:

Plum and prune growing regions 1
Central California valleys lying west of the Coast Range 4
Interior valleys of central California 6
Western Oregon and western Washington 8
Eastern Oregon, eastern Washington, and Idaho 11
The choice of locality and site for a plum orchard 12
Varieties 20
Pollination 25
Stocks used in propagating plum trees 26
Top working 28
Distance for planting 33
Nursery trees for planting 36
Time for planting 38
Orchard culture 38
Irrigation 41
Cover crops 45
Intercrops 48
Pruning 49
Fruit thinning 54
Propping and bracing 55
Fertilizers 55
Fruit harvest 55
Diseases and insects 57

FARMERS' BULLETIN No. 1373.—HOMING PIGEONS AND THEIR CARE: Page
Varied uses of homing pigeons 1
Homing pigeons as a recreation or sport 2
Selection of stock 2
Mating 3
Molting 5
Selection for races 6
Training 7
The racing of pigeons 9
Feeding 13
The pigeon pen 14
Sanitation and diseases 14
FARMERS' BULLETIN No. 1374.—CARE OF FOOD IN THE HOME:
Causes of spoilage 1
Storage 4
Care of different kinds of foods 6
General rules 11
FARMERS' BULLETIN No. 1375.—GAME LAWS FOR THE SEASON 1923–24.—A SUMMARY OF FEDERAL, STATE, AND PROVINCIAL STATUTES:
Review of legislation of 1923 1
Summary of laws relating to seasons, licenses, limits, sale, and export 8
State laws 9
Canada 41
Newfoundland 47
Lower California 47
Imported game and game raised in captivity 48
Lacey Act, regulating interstate commerce in game 52
Tariff act, regulating importation of plumage, game, etc 53
Law protecting birds and their eggs on Federal bird reservations 54
Hunting on national forests 54
Convention between the United States and Great Britain for the protection of migratory birds in the United States and Canada 55
Migratory-bird treaty act 58
Migratory-bird treaty-act regulations 59
Order permitting the killing of bobolinks, reedbirds, or rice birds 64
Canadian regulations under migratory-birds convention act 64
Canadian tariff act, prohibiting importation of plumage, mongooses, and certain birds 69
Officials from whom copies of game laws may be obtained 70
